

Dear all,

Over the past 3 years it has been an honour to serve our school as the PTFA Chair working alongside some of the most hard working and wonderful team of individuals, creating solid foundations for a determined, resourceful, charitable and most of all, educationally focused PTFA for the many successful years to come.

The support the PTFA has received by everyone connected to it, has without question contributed to its formation right up to where it stands today as an extremely respected, loved and admired part of our school and its community. This would not have been possible without the generosity bestowed by parents, teachers, local businesses, and of course our talented children from all year groups.

From its commencement the PTFA's principal goal has been to aid and contribute to the level of education and nurturing environment we as parents would want for our children to have and for the many future children who will join the school through the many years to come.

Today, it is with our heads held high, the PTFA committee feel that we have established and achieved thus far, what we had set out to do going back to our very first day. Thank you, thank you to everyone involved, no matter the size of anyone's contribution be that through offering your time, financial donations, ideas put forward etc. We genuinely thank you on behalf of all that have and will continue to benefit from the love given to the PTFA and school.

The PTFA is a full time commitment and it will continue to be one for as long as it continues as an established part of our school. Therefore, the time has come for me as current Chair along with the current committee to stepdown and hand over the reins to the next generation of members to continue to take our PTFA from strength to strength.

We the current members have now other challenges and adventures to focus on and given the level of commitment and personal time required to continue building the future of the PTFA, feel it is the right time for us to stepdown. We are confident that with the many people that have contributed towards the success of the PTFA over the past 3 years there are members of our school community who are more than capable and willing to put themselves forward to take over and build on the solid foundations we have already created.

It is never easy to step away from something you love and are extremely passionate about and it is with a very heavy heart we have taking this decision. The PTFA means a lot to us and has been a part of our everyday lives for such a long time now but with everything in life, change is inevitable and we whole heartedly wish every success to our new committee when it is formed. It now only leaves me to once again thank you all on behalf of the current PTFA committee for all the love, support and good times we have had on this wonderful journey so far.

Au Revoir

Hannah Chaudhry – PTFA Chair
